DHL PARCEL INTERNATIONAL DIRECT

FROM CHINA TO MEXICO

With the 11th largest GDP in the world by purchasing power parity[1], Mexico is in a unique position as a global power with a consumer population relatively untapped by outside commercial investment. While cross border e-commerce in Mexico is still in its infancy, more than half of consumers plan to make a cross border purchase[2]. With China being the second largest online shopping destination of Mexico[3], let us help you tap on the

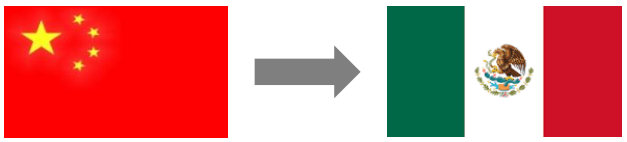
DHL Parcel International Direct provides you an end-to-end shipping solution to drive your online business into the Mexican market.

E-Commerce Made Easy

We know what it takes to grow and sustain your e-commerce business – we are the e-commerce specialist and offer affordable cross border solutions to ship your products into the Mexican market easily.

DHL Parcel International Direct is our reliable and efficient international shipping solution, offering all the advantages your online business needs to provide the best possible delivery experience to your customers in Mexico. Our direct-to-consumer solution ensures faster and more reliable shipping with tracking abilities than conventional mailing options.

DHL's Integrated Network – Powering Up Your Deliveries



Through our extensive international network coverage, we can deliver your orders from China to your Mexican customers' doorsteps in excellent condition. Our high-quality delivery helps you win your customers' loyalty and satisfaction, and seize the opportunities to expand your business into Mexico.
